Full-screen Drawing Mode

Drawing walls made easy! Introducing full-screen canvas for easier wall drawing and fine adjustments. This feature is available on Coverage Area, Draw Wall, and AP Placement pages.

Custom Wall

Wow! Stuck with limited wall choices? No worries, now with Add Wall option you can add your own custom wall by defining the attenuation factor, name and color for the wall.

AP Power level with attenuation factor

To help you select the apt power levels of the access points, we are now providing attenuation factor associated with each power level.

Export AP Design

Now you will have an option to "Export" on AP Placement page, where you can download the RF design, and share with your customers.
